- **The Martingale Strategy:** Doubling the bet after every loss. If a win ultimately occurs, it recuperates all previous losses plus a profit equivalent to the original base bet. *Warning: This needs a massive bankroll and can strike table or balance limits quickly.*
- **The Moonshot Strategy:** Setting aside a small portion of the bankroll for extreme multipliers (e.g., 500x or 1,000 x) while playing conservatively otherwise.
