The main goal is simple: gamers bet on where they believe the huge, 55-segment wheel will stop. However, what separates Crazy Time from its predecessors (like *Dream Catcher* or *Monopoly Live*) is the sheer density of its bonus offer features. With 4 special mini-games ingrained onto the wheel, gamers are provided multiple layers of engagement that go far beyond a standard spin.

The Anatomy of the Wheel

The Crazy Time wheel features 54 segments. Each section represents either a mathematical payout (1, 2, 5, or 10) or among the 4 reward video games. The distribution of these sections determines the volatility and frequency of wins.

Segment Type Variety of Segments on Wheel Base Payout **1** 21 1:1 **2** 13 2:1 **5** 7 5:1 **10** 4 10:1 **Coin Flip** 4 Activates Bonus Game **Cash Hunt** 2 Triggers Bonus Game **Pachinko** 2 Activates Bonus Game **Crazy Time** 1 Activates Bonus Game

The Top Slot Feature: Amplifying the Action

Before each and every single spin of the primary wheel, a secondary, two-reel slots spins at the same time above the main game. This is referred to as the **Top Slot**.

- **Reel 1** screens a segment of the wheel (either a number or a bonus offer game).
- **Reel 2** displays a multiplier (ranging from 2x as much as 50x).

If the sign on the first reel lines up horizontally with the multiplier on the 2nd reel, that multiplier is applied to the matching sector for that round. If the wheel arrive on that specific section, all wins for that outcome are multiplied. This feature is where the potential for huge payments comes from.

4. Crazy Time

The holy grail of the game. Striking this single sector on the main wheel opens a door to a jaw-dropping virtual world behind the studio wall.
