The Top Slot: Doubling Down on Excitement

Before every spin of the main wheel, a two-reel **Top Slot** spins at the same time above the main video game. One Crazy Time Free reel arbitrarily selects a bet area (a number or a benefit video game), while the other reel selects a random multiplier (varying from 2x up to 50x).

If the bet area and the multiplier align horizontally on the Top Slot, that multiplier is used to the corresponding segment for that spin. This feature is the primary engine behind the video game's most jaw-dropping payouts.

3. Pachinko

- **How it works:** Inspired by the traditional Japanese arcade game, Pachinko includes a large wall filled with physical pegs. The host drops a puck from the top, and it bounces randomly down the board until it lands in among several multiplier zones at the bottom.
- **Special function:** If the puck lands in a "DOUBLE" zone, all multipliers at the bottom of the wall double, and the host drops the puck once again, permitting compounding multipliers.

4. Crazy Time
