2. Money Hunt

- Players are offered a crosshair to objective and fire at a sign of their option before the timer goes out.
- As soon as time expires, all symbols expose their covert multipliers, and gamers receive the multiplier corresponding to the target they shot.

3. Pachinko

Influenced by the traditional Japanese arcade game, this bonus round takes place in front of a big physical wall filled with physical pegs.

- At the bottom of the wall are numerous multiplier zones, alongside an unique **" DOUBLE"** zone.
- The host drops a puck from the top of the wall. As the puck bounces randomly down through the pegs, it eventually lands in among the multiplier slots at the bottom.
- If the puck lands on "DOUBLE," all multipliers on the board are doubled, and the host drops the puck again for an even larger prize.

4. Crazy Time

The supreme perk round takes gamers behind a red door into a dynamic, virtual, Alice-in-Wonderland-style world featuring an enormous 64-segment wheel.

- Players must select one of three flappers (Green, Blue, or Yellow) at the top of the wheel.

- The host presses a giant red button to spin the wheel.
