What is Crazy Time?

Released in June 2020, Crazy Time is a live online video game reveal developed around an enormous, vibrantly colored, 52-segment mechanical wheel. Run by a charismatic live presenter in a lively, studio setting, the game integrates basic wagering mechanics with 4 distinct, extremely unforeseeable bonus offer video games.

Unlike traditional gambling establishment games where players bet your home [Bet Crazy Time](#) in a singular environment, Crazy Time fosters a shared community experience. Thousands of gamers from around the world can take part in the very same video game round, chat with one another, and commemorate wins together in real-time.

The Core Wheel Segments

Before each spin, gamers position bets on where they believe the wheel will stop. The wheel includes numbers that pay out even money or better, as well as sections that trigger the bonus offer rounds.

Wheel Segment Payout/ Action Possibility (Approximate) **1** Pays 1 to 1 ~ 39.23% (21 segments) **2** Pays 2 to 1 ~ 25.00% (13 sectors) **5** Pays 5 to 1 ~ 13.46% (7 sections) **10** Pays 10 to 1 ~ 7.69% (4 sectors) **Coin Flip** Triggers Bonus Round ~ 7.69% (4 segments) **Cash Hunt** Sets Off Bonus Round ~ 3.85% (2. sections) **Pachinko** Sets Off Bonus Round ~ 3.85% (2 sections) **Crazy Time** Sets Off Bonus Round ~ 1.92% (1 section)

The Top Slot Feature

Including an extra layer of anticipation to every single round is the **Top Slot**, a two-reel mini slot device positioned straight above the main cash wheel.

As the live host encourages players to place their bets, the Top Slot spins at the same time with the main wheel. It produces:

1. **A Bet Spot:** One of the wheel numbers or bonus offer games.
2. **A Multiplier:** A multiplier value varying from 2x as much as 50x.

If the primary wheel stops on the exact bet spot that aligns with the Top Slot's choice, the multiplier is applied to that win. For basic numbers, the payment is increased. For bonus offer rounds, the multipliers apply to the initial

values inside the reward game, setting the stage for potentially huge payouts.

The Four Immersive Bonus Rounds

The real body and soul of Crazy Time are its four interactive benefit rounds. Whenever the wheel arrive on a benefit sector, all gamers who positioned a bet on that specific sector get to get involved.

Wheel with Massive Multipliers.

1. Coin Flip

The easiest and most regular bonus offer round. The host steps up to a device that turns a coin with a **Red** side and a **Blue** side.

- Before the flip, random multipliers are designated to each side of the coin.
- The coin is immediately turned, and whichever side lands face-up identifies the winning multiplier for the participating players.

2. Cash Hunt

This changes the screen into an enormous interactive shooting gallery featuring a screen with **108 random multipliers**.

- The multipliers are hidden behind different signs (like a cactus, target, chef's hat, etc) and after that shuffled.
- Gamers are given a crosshair to aim and fire at a sign of their option before the timer goes out.
- When time expires, all symbols expose their concealed multipliers, and gamers get the multiplier representing the target they shot.

3. Pachinko

Motivated by the conventional Japanese arcade game, this reward round occurs in front of a big physical wall filled with physical pegs.

- At the bottom of the wall are various multiplier zones, along with an unique "**DOUBLE**" zone.
- The host drops a puck from the top of the wall. As the puck bounces randomly down through the pegs, it ultimately lands in one of the multiplier slots at the bottom.
- If the puck arrive on "DOUBLE," all multipliers on the board are doubled, and the host drops the puck again for an even larger prize.

4. Crazy Time

The ultimate bonus round takes gamers behind a red door into a lively, virtual, Alice-in-Wonderland-style world featuring an enormous 64-segment wheel.

- Gamers need to pick among three flappers (Green, Blue, or Yellow) at the top of the wheel.
- The host presses a giant red button to spin the wheel.
- The wheel includes enormous multipliers, "DOUBLE," and "TRIPLE" sectors. If a flapper arrive on a double or triple, all multipliers on the wheel are multiplied accordingly, and the wheel spins again. This can repeat up

until an incredible **20,000 x max multiplier** is reached.

Methods and Approaches for Players

Since Crazy Time is eventually a game of opportunity regulated by Random Number Generators (RNGs) and physical mechanics, no method can ensure a win. However, players typically approach the game utilizing a few distinct styles:
