The Top Slot Feature

Including an additional layer of anticipation to every round is the **Top Slot**, a small two-reel slot maker situated directly above the primary cash wheel.

Simply as the host spins the wheel, the Top Slot spins at the same time. It generates:

1. One random bet area (either a number or a perk video game).

If the horizontal lines align and the main wheel arrive on that specific bet spot, the multiplier is used to the payout, turning standard wins into massive payouts and supercharging the perk rounds.
