How does it work, and what strategies can gamers use to maximize their capacity? This thorough guide dives deep into everything you need to learn about playing Aviator in Kenya.

What is the Aviator Game?

Aviator is a social multiplayer game belonging to the "crash game" category. The principle is extremely easy: an airplane takes off, and as it ascends, a multiplier coefficient increases. Players place one or two bets before the round begins and should strike the "Cash Out" button before the plane arbitrarily flies away.

If a player squanders successfully, their stake is multiplied by the existing coefficient. If the plane flies away (crashes) before they squander, the bet is lost.

The game's appeal lies in its mix of suspense, social interaction (thanks to an in-game live chat), and transparency, as it is built on a Provably Fair cryptographic system.
