In this variation, rather of a rocket or a jet taking off into the stratosphere, players enjoy a reliable angler cast his net deep into the water. As the net sinks, a multiplier starts to tick up, starting at 1.00 x. The goal is basic: money out before the net gets snagged, breaks, or the catch swims away. If players cash out in time, they win their stake multiplied by the present value. If the game "crashes" before they squander, the bet is lost.
