What is Big Bass Crash?

At its core, Big Bass Crash is a multiplayer crash video game. Unlike a basic slot where you spin reels and wait on signs to align, a crash game features a single, increasing multiplier.

In Big Bass Crash, the style is immediately recognizable to fans of the *Big Bass* series. Players join the familiar bearded angler on his boat. As the round begins, the angler casts his line, and a multiplier starts ticking up from 1.00 x. The goal is basic: **squander your profits before the line snaps (the crash happens)**.

If you squander in time, your stake is multiplied by the current value. If the line breaks before you squander, the bet is lost.

How to Play Big Bass Crash: Step-by-Step

Playing Big Bass Crash is incredibly uncomplicated, making it accessible to both newbies and skilled bettors. Here is how a normal round unfolds:

1. **Place Your Bet:** Before the round begins, gamers select their stake within the enabled betting limits.
2. **The Cast:** The betting window closes, the round begins, and the angler casts his net/line.
3. **The Climb:** As the multiplier increases, tension builds. Gamers watch the screen carefully as the value increases from 1.00 x upwards.
4. **The Cash-Out:** Players must strike the "Cash Out" button before the crash happens.
5. **The Crash:** At a random, algorithmically produced minute, the line breaks. Anybody who hasn't squandered loses their bet for that round.

Secret Game Features

To keep gameplay engaging, Pragmatic Play included numerous modern functions in Big Bass Crash:

- **Auto-Cashout:** Players can set a predetermined multiplier (e.g., 2.00 x or 5.00 x). If the video game reaches that number, it instantly squanders for the player.
