In addition, items have a **Wear Rating** (Float Value) ranging from 0.00 to 1.00, which determines how scratched or worn a skin appears. Particular uncommon skins are incredibly scarce in "Factory New" condition, driving their value sky-high.

Standard Skin Rarity Tiers

Rarity Tier Color Code Description **Customer Grade** White Typical "drop" weapons, typically default skins.

Industrial Grade Light Blue Slightly much better than customer grade, common in souvenir packages. **Mil-Spec**

Dark Blue The basic baseline for many weapon cases. **Limited** Purple Uncommon skins with noticeable style

patterns. **Classified** Pink Extremely detailed and desired weapon finishes. **Covert** Red The greatest basic tier for

weapon surfaces, excluding knives and gloves. **Exotic/ Extra-Ordinary** Gold Knives and Special Agent gloves.

Aspects That Drive CS2 Skin Value
