PlayChip	PLAY	Ethereum	Cross-platform gaming
commitmentDice	DICE	EOSIO	Provably reasonable betting & & tokenized prizes

These tokens intend to solve typical discomfort points of online gambling: high charges, slow deal times, lack of privacy, and regulatory obstacles.

How Casino Crypto Coins Work

1. **Wallet Creation**-- Players create a cryptocurrency wallet (either a native chain wallet or a custodial service supplied by the casino).
2. **Financing**-- Users acquire the casino crypto coin on an exchange or through on-ramps, then transfer it to their video gaming wallet.
3. **Betting**-- When a bet is placed, the wager amount is subtracted from the gamer's wallet and secured a clever contract.
4. **Outcome Resolution**-- Once the game result is figured out, the smart contract automatically distributes payouts to the winner's wallet, while your house retains its rake.

5. **Withdrawal**-- Winners can immediately transform their earnings back to fiat (by means of exchange or over-the-counter desk) or keep the tokens for future play.

Since the entire lifecycle is governed by code, the process eliminates manual reconciliation and decreases the danger of scams.
