FAQ About Dumpster Rental

How do I choose the right dumpster size for my project?

Choosing the right dumpster size involves assessing your project's scope and the volume of waste. Common sizes range from 10 to 40 yards. A 10-yard dumpster is suitable for small cleanouts, while larger sizes like 30 or 40 yards fit renovation or construction projects.

What items are prohibited in a dumpster rental?

Prohibited items in dumpster rentals often include hazardous materials, electronics, appliances with refrigerants, tires, and certain construction waste. It's essential to check with the rental company for specific guidelines to avoid additional fees.

How long can I keep a dumpster rental?

Most dumpster rental companies in Chicago allow a rental period ranging from 3 to 14 days. Additional charges may occur for extended periods, so it's advisable to clarify rental duration with the provider.

Do I need a permit for a dumpster rental in Chicago?

Yes, a permit may be required if you place a dumpster on a public street or sidewalk in Chicago. It's important to check local regulations and arrange for any necessary permits through the city before ordering a dumpster.

Understanding Your Options: Dumpster Sizes and Uses

At Pro Haul Dumpster Rental, we understand that one size does not fit all. That's why our Chicago dumpster rental includes options from 10 to 40 yards. For lesser home projects, like organizing, a 10 or 20-yard dumpster

may be sufficient. However, for larger projects such as construction, a more substantial 30 or 40-yard dumpster may be more beneficial.
