Rather of spinning symbols on a grid, players see a graphic of the franchise's beloved angler setting sail in his motorboat.

As the boat moves across the screen, a multiplier value constantly increases, beginning at 1.00 x and in theory climbing up infinitely. The objective is easy: location a bet, view the multiplier increase, and struck the "Cash Out" button before the boat undoubtedly crashes or capsizes. If a player squanders successfully, they win their stake increased by the current value. If the boat crashes before they squander, the bet is lost.
