- **Objective:** Cover the cost of the second bet with the winnings of the first, turning the 2nd bet into a "complimentary" effort at a big payment.

3. The High-Risk Strategy (Chasing High Multipliers)

- **How it works:** Waiting out the lower multipliers in hopes that the plane reaches 10x, 50x, and even 100x+.
- **Objective:** Hit enormous payments. However, this strategy requires a resistant bankroll, as many rounds will result in losses before a high multiplier hits.
