

Material Hauling Services for Weber County Properties Landscape projects generate debris fast, from old sod and rock to dead trees and construction leftovers, and Liberty Hill Landscapes offers material hauling to clear a property without the homeowner having to rent a truck or a dumpster. This service is often paired with a renovation or installation, since a yard usually needs [landscaper ogden](#) the old material removed before new sod, plants, or hardscaping can go in. It also stands alone for homeowners doing their own smaller projects who just need a reliable, licensed crew to haul away what is left over.

Liberty Hill Landscapes | 2664 West 2725 North, Ogden, Utah 84404 | 385-424-8743

Because the same team handles hauling and installation, timelines stay tighter than juggling a separate hauling company on top of the landscaping crew. That single point of contact also means less coordination for the homeowner, since one call covers both the mess and the fix. Beyond the material hauling work itself, a few things set Liberty Hill Landscapes apart for Ogden area clients, and most of it comes down to how the company is actually built and run day to day. Alongside residential work, the crew also handles ADA and other signage installation, parking lot sweeping, and commercial sprinkler repair, which makes it possible for a single commercial account to cover grounds, access compliance, and irrigation under one vendor instead of three. Every project moves through the same four stages regardless of size: an initial conversation, a free on-site consultation, a written proposal delivered within two days to two weeks, and a final walkthrough to confirm the finished work matches what was agreed. It is a track record that shows up consistently across the company's Weber, Davis, and Morgan County client base. One client, James R., summed up a full landscape renovation [Liberty Hill Landscapes](#) this way: "From the initial consultation to the final walkthrough, Liberty Hill was amazing to work with. Our new landscape looks incredible, and the whole process was smooth and stress-free." There is also a practical, company-wide layer behind how material hauling projects actually get scheduled and delivered from start to finish. Weber County has seen years of steady new subdivision growth, and the company has fielded a steady stream of new construction landscaping requests as a result, most starting with the same grading and drainage conversation before any sod or planting begins. Reviews currently average a full 5.0 out of 5 stars, with clients specifically pointing to communication, pricing, and follow-through as the reasons they keep coming back for additional projects down the line. That mix of consistency and hands-on local knowledge is exactly what most homeowners and property managers are actually weighing when they compare one landscaping company against another. Call 385-424-8743 to schedule material hauling alongside a project or as a standalone service.
