What is an Online Crash Casino?

An online crash gambling establishment is a gambling platform-- frequently crypto-focused-- that specializes in or greatly features "crash" design wagering games. Unlike standard casino video games where the outcome is figured out by a spinning reel or a dealt card, a crash game revolves around a quickly increasing multiplier.

The principle is remarkably basic:

1. **The Launch:** A multiplier starts at 1.00 x and begins climbing up.
2. **The Climb:** As the multiplier increases, the possible payment grows.
3. **The Crash:** At any randomized 2nd, the game "crashes."
4. **The Goal:** Players should cash out *before* the crash happens. If they cash out effectively, they win their bet increased by the present figure. If the game crashes before they cash out, they lose their stake.

Popular titles like *Aviator*, *JetX*, and *Space XY* have turned this mechanic into a worldwide phenomenon.
