What is the Aviator Game?

Established by Spribe, Aviator is a social multiplayer game that falls under the "crash game" genre. Unlike traditional slot makers with spinning reels and intricate paylines, or table video games like blackjack that require remembering rules, Aviator is refreshingly basic.

The core premise focuses on an increasing airplane. When a round starts, a multiplier begins ticking up from 1.00 x, and the airplane takes off. The goal is straightforward: gamers need to position a bet and squander before the airplane randomly flies away. If a player cashes out successfully, they win their initial stake multiplied by the present figure on the screen. If the aircraft "crashes" (flies away) before they squander, the bet is lost.

Secret Features of Aviator

- **Social Interaction:** A live chat feature permits players to connect, share strategies, and commemorate wins together in real-time.
- **Live Statistics:** Players can view the bets and cash-out multipliers of others in the round, producing a communal atmosphere.
